

THE STORY BEHIND OUR STORY

▼

Because we want to bring you the world

📖

YOU GAVE US OUR MISSION

take a CITY and make it YOURS

▲

An idea that was carefully chosen to provide users with easy , fast and efficient access to all the info thei need in order to study in the country of their dreams. Based on our personal experiences we struggled through our researchs when we were planning to study abroad and that made us loose so much time and eventually end up resigning on the idea for we were late . And we hope to provide students like us the opportunity to get their applications done on time and with a 100% efficiency and accuracy .. they'll reassure their families and themselves about their status before even going through knowing where t stay and where t study along with what to study based on their desires and choices and all the surroundings they'll need at first as foreigners from hospitals to malls and supermarkets .. we thought about everything and we also thought about all options that might ease you financially through providing you with all available scholarships for money can sometimes be a barrier between us and our dreams and that shouldnt

The diagram illustrates a hierarchical menu structure for a university website. The top level consists of three dropdown menus: **COUNTRY**, **CITY**, and **SUBJECTS**. The **COUNTRY** menu has three options: **Canada**, **France**, and **Germany**. The **CITY** menu has five options: **Montreal**, **Vancouver**, **Toronto**, **Ottawa**, and **Quebec**. The **SUBJECTS** menu has five options: **Engineering**, **Arts and Humanitie**, **Medicine**, **Management**, and **Social Sciences**. Arrows indicate the flow from the top level to the bottom level. Below the menu structure is a grid of 12 placeholder boxes, each labeled with a unique identifier (uni num1 to uni num n) and a mini description box.

	<u>University of YALE ...</u>	RETIRER
	<u>University of NYU ...</u>	RETIRER
